

# THE INTERNATIONAL ENVIRONMETRICS SOCIETY (TIES)

## 2004 Membership

The objectives of the Society are to foster the development and use of statistical and other quantitative methods in the environmental sciences, environmental engineering and environmental monitoring and protection. To this end, the Society promotes the participation of statisticians, mathematicians, scientists and engineers in the solution of environmental problems and emphasizes the need for collaboration and for clear communication between individuals from different disciplines and between researchers and practitioners.
