

M THE AMERICAN MATHEMATICAL MONTHLY

Volume 117, Number 2

February 2010

Natalie Priebe Frank Sean M. Hart	A Dynamical System Using the Voronoi Tessellation	99
David Sherman	Variations on Kuratowski's 14-Set Theorem	113
Tamás Keleti Elliot Paquette	The Trouble with von Koch Curves Built from n-gons	124
Lutz Dümbgen	Nemirovski's Inequalities Revisited	138
Sara A. van de Geer Mark C. Veraar Jon A. Wellner		

NOTES

John E. Wetzel	An Ancient Elliptic Locus	161
Lara K. Pudwell Eric S. Rowland	Counting Interesting Elections	167
Sam B. Nadler, Jr.	A Proof of Darboux's Theorem	174
Emmanuel Lesigne	On the Behavior at Infinity of an Integrable Function	175

PROBLEMS AND SOLUTIONS		182
